

## PIPE BOOTS

[Pipe Flashings \(boots\)](#)- for economical flashings of single ply roofing systems. Pipe Boots (or witches' hats) are economical flashings designed for single pipe penetrations through single ply roofs. Virtually any common pipe size can be accommodated with one of these boots. The conically shaped steps of the Portals Plus Pipe Boots will securely seal all pipes and its large double thick molded rib at the top of each step offers superior tear resistance and reinforcement, as well as a cutting guide for installation. The Portals Plus Stainless Snaplock Clamp maximizes the secure seal at the penetration. Utilizing the Pipe Boots eliminates workmanship errors in field fabrication and makes flashing pipes a clean, consistent approach. Portals Plus [Adapter Rings](#) can be used to seal very small pipes, as well as unusual shapes such as angle irons and square tubes.

Other Flashing Systems: [Pipe Portals](#), [Double Pipe Portals](#), [Alumi-Flash](#)
