

## Double Pipe Portal with C-212 & C-412 Caps

### SPECIFICATION

Furnish and install the Portals Plus Double Pipe Portal as manufactured by Portals Plus, Inc., Bensenville, IL, at all points where up to two pipes .375" - 1" in diameter and six pipes 1" - 2" in diameter penetrate the roof. The Pipe Portal shall include an 18 gauge galvanized roof curb model RC-\_\_\_A with integral base plate, continuously welded corner seams, factory-installed wood nailer, and 1.5" 3lb. rigid fiberglass insulation. The Pipe Portal shall be furnished with a laminated, acrylic coated, ABS plastic curb cover with prepunched holes and molded sealing rings on two 8" collared openings. Two EPDM (Ethylene Propylene Diene Monomer) compression molded caps model C-212 & C-412 shall be utilized. All Caps shall include Portals Plus' stainless steel Snaplock Clamps. Attachment and installation of the Pipe Portal shall be done in accordance with Portals Plus' instructions and the roofing membrane manufacturer's recommendations.
