Portals Plus Introduces Premier Seal™ ReRoof Drains

The Commercial Products Group of Hart & Cooley, Inc., is proud to announce that Portals Plus has again expanded its offering of Roof Drains and ReRoof Drains with the addition of the Premier Seal™ ReRoof Drain products. This new offering will be available to fit standard 3", 4", 5", and 6" roof drain pipe sizes. The complete line of Portals Plus rooftop accessories is available nationwide through local wholesale distributors served from three regional distribution centers across the country- Carol Stream, IL; Huntsville, AL; and Sanger, CA.

Portals Plus is the premiere roofing accessory manufacturer. The new Premier Seal™ ReRoof Drains utilize an EPDM rubber seal which is activated by a screwdriver which compresses the seal and causes it to expand securely against the inside of the existing piping. One feature of this new seal is the use of a white ABS interior casing which offers greater visibility during installation. The Premier Seal™ has been developed in accordance with testing parameters set forth by both ANSI and SPRI.

Portals Plus was established in 1977 and is one of seven brands offered by the Commercial Products Group of Hart & Cooley, Inc. CPG is a leading manufacturer of Commercial and Industrial building product, specializing in Roofing and HVACR offerings. The Commercial Products Group is headquartered in Carol Stream, IL, with manufacturing facilities in Carol Stream, IL; Huntsville, AL; Sanger, CA; and south of Calexico, CA. For more information, call Customer Service at 800/624-8642 or visit the extensive website at www.commercialproductsgroup.com.
